Don Pasquale." At the Walnut, Mr. Murdoch makes his conges to a Philadelphia audience in Claude Mel notte. During his present engagement, a new tragedy, sutilited "Witchcraft," written for him by a gentleman of this city, will be performed. The piece is founded spon the trials and persecutions of the supposed witches at Salem, Massachusetts, near the close of the sevenmenth century. Mr. Murdoch has been a long time tudying the character to be taken by him in this piece, and a fine piece of acting is ex-ceted. The Arch street heater still continues open, under the management of Mr. Burton. Mr. Jamieson takes the part of Clande Melotte this evening.

Boston, April 27, 1846.

A Ramble to South Boston-Visit to Dorchester Heights-Preaching of Rev. Joy H. Fairchild, once tried and acquitted on a charge of Adultery-Edward Everett's In-

l embraced the opportunity, presented by a pleasunt stabbath morning, to ramble over to South Boston, and so pay a short visit to the celebrated "Dorchester Heights," which were occupied by General Washington at the time the British army evacuated Boston. These heights shord an excellent view of the city of Boston—the tall dome of the State House, towering up smidst immense piles of brick and mortar—the wharves and shipping in the harbor—the islands in the bay, and the neighboring city of Roxbury, and adjacent county towns. The wind being fair, a large fleet of coasting schooners and sloops were gaily sailing out of port, and gave to the waters an appearance of hie and beauty arely excelled.

After enj-ying the besselies of the varied scenery, and shaling the pure and invigorating air, I retraced my steps, just as the bells were summoning the worshipters to church. Knowing that the Rev. Joy H. Fair-hild ministered in holy things, to a congregation in this clave, I had the curiosity to drop in and hear him. After his trial and acquittal, on the charge of adultery, a small shand of his old friends organized a new church and soliety, in South Boston, where he had formerly preached, and where it had been alleged he committed adultery with a girl employed as a domestic in his family. They avoided him to become their pastor and religious teacher; he accepted the invitation. There was, however, strong remonstrance, on the part of the orthodox clerry cannot be Boston, against his installation. This remonstrance was disregarded, and he was duly installed as a minister of the gospel. His society is small, but apparently very respectable; and they worship in a spacious and commodious hall, centrally located on Broadway, he principal street in South Boston. A handsome pulpit (races the ball; and, altoge/her, it is a better church than many I have seen.

His society is small, but apparently very respectable; and they worship in a special and commodious hall, centrally located on Broadway, the principal street in South Boston. A handsome pully graces the hall, and, altogether, it is a better church than My first impressions of Mr. Fairchild (for 1 had never seen him before) were certainly very favorable. His apparance is prepassessing. In form he is tail and sland and attractive voice. At times he seed, the state of the seed of the seen and rather graceful. There is a good, intellectual and attractive voice. At times he appeared quite and and attractive voice. At times he appeared quite and mated, yet the delivery of his sermon was marked with good taste throughout, evincing a highly cultivated mind.

He gave out the hymns, selected the tunes in which was mught be sung, and then led the singing. There we had a specimen of gauntine congregational singing. The text was in the 3th Pasim, apart of the Sih verse—0, taste and see that the Lord is good. The pread or remarked that the goodness of God, that he Lord is good. The pread or remarked that the goodness of God might be likened unto a great feast, especially when viewed in connection with the plan of redemption. Havana, April 15.—The Rice market was duil. 1617 hags from Valencia, Spain, had been sold at 9½ rs., and 911 do at 9½. The cargo of the T. C. Mitchell had been put in store, and the brig Havana's was soldest 12 rs.

Kindro, and the brig Havana's was soldest 12 rs.

Kindro, (Jan.) March 25.—Flour \$7 25 to \$8, plentiful; Meal \$5 to \$6, scarce; Rice \$5 to \$5 50, one cargo only in the market; Bread, Pilot and Crackers, No. 1, \$6 a barrel in the market; Navy Bread \$4 50.

Pernamenco, March 31, 1846—Since our last circular the only arrivals from the U. S. shave been the Globe, from Philadelphia, and H. M. Warfield, from Baltimore, the latter of which proceeded for Bahs, leaving our stock of flour on sale in the hands of importers and speculators at about 9,000 barrels, principally of ordinary brands, which retail very slowly indeed, at 181000 per bbl. Good Richmond is more wanted, and may be quested at 20%, or a trifle more; the bakers, however, will only buy very sparingly so long as the Southern markets are over-supplied, as at present. Our last year's consumption — salled 4000 bbls, per monta, being an increase on former years at fully ten per cent.

Domestics continue very dull, particularly Brown Drills, which are almost unsaleable. Sales of Hyson Tea have been made at 1|800, |1800 and 24|160; inferior Tess do not answer. Pearl and Gunpowder Teas are also unsaleable.

MORAL PHYSIOLOGY,

OR a plainly written Treatise on the Population Question, by R. Glover, M. D. To every person of sound common sense, this work is one which will command the highest praise. It is true a few ignorant people may condemn it, but the editor is fully persuaded that the high importance of the subject of which it treats will present itself so forcibly to reflecting minds, that it must command respect. Were this book carefully read by every married operson, and its advice strictly followed, we are persuaded that a different state of society from the present would exist.

GALVANIC RINGS

MAGNETIC FLUID.

'THIS REMARKABLE DISCOVERY comprises an emercial agent, by means of which the ordinary bate-riese, lectric and magnetic machines are entirely affectual, much cheaper, and with put fect convenience and allowed with, and the power applied in a manner equally affectual, much cheaper, and with put fect convenience and askety. The Galvanic Rings in connection with the MacNettic Fluid, have been used with entire success in all cases of RHEUMATISM, acute or chronic, applying to the head, face or limbs; Gout, Tie Doloreus, Tootbache, Bronchitis, Network of Sick Headache, Indiagnition, Farlysis, Falsy, Network of Sick Headache, Indiagnition, Farlysis, Falsy, Scilicitic Fits, Cramp, Palpitation of the Heart, Apoplexy, Stiffness of Joints, Spried Complaints, Lumbago, Neuralgia, Nervous Tremos. Dizziness of the Head, Pains in the Head and Side, general Debility, Deficiency of Nervous and Physical Energy, and all Nervous Disorders. In cases of Dyspepsia, which is simply a nervous deraugement of the digestive organs, they have been found equally successful. The Rings are of different prices; being made of all sizes, and of various ornamental patterns, and can be worn by the most delicate female without the slightest inconvenience.

THE GALVANIC BELIAS, BANDS, BRACELE FS. Sc., are medications of the invention, and age recommended various ornameural patterns, and can be worn by the most delicate female without the slightest inconvenience.

THE GALVANIC BELTS, BANDS, BRACELETS, &c., are modi. cation of the invention, and are recommended in more chronic case: of disease, where the Rings do not possess sufficient intensity or power. They are adapted to the waits, arms, wrists, ancles, chest, or any part of the body with perfect case. Any galvanic power that is required may thus be obtained, and no complaint which the mysterious agent of Galvanism can affect, will fail to be perfuneately relieved.

CHRISTIE'S MAGNETIC FLUID is used in connection with the Rings and their modifications. This composition has been pronounced by the French Chemists, to be one of the most valuable discoveries of modern science. It is believed to possess the remarkable power of rendering the nerves sensitive to Galvanic action, by this means causing a concentration of the influence at the seat of disease, and thus giving rapid and permanent relief.

CHRISTIE'S GALVANIC STRENGTHENING PLASTERS.

These articles form an important addition to the Galvanic Rings, acting upon the same principle, but having the advaning of inore local application. As an effectual means for Strengthening the system when debilitated by disease or other causes; as a certain add in constitutional weakness; as a preventive for colds, and in all affections of the chest generally, the GALVANIC STRENGTHENING PLASTER will be found of great and permanent advantage.

The reader is referred to numerous (G-HOME CERTIFICATES, DB) published in the N. Y. Sun, Mirror, Tribune, Atlas, and other papers. These testimonials, all of which are from the most respectable sources, have been spected to meveral hundred of a similar character, which have been procured during the ahort time the discovery has been before the American public.

the least degree, to the improvement of the Lead, having availed themselves of every modern improvement for that purpose.

Being well aware, from our long familiarity with the different leads sold is our market, that by far the greater proportion sold as such has beed, and still is greatly adulterated with fortice, an article of mineral production much beavier than White Lead, and in itself possessing no virtue of any pigment whatever, it being, when mixed with oil, almost transparent, and in fact having nothing but its specific weight to recommend it, the Transress of the Atlantic White Lead Company have passed, unanimously, the following resolution, visit where passed, unanimously, the following resolution, visit where the Atlantic White Lead Company will make but one quality of White Lead, both Dry and Ground in Oil; that to be a strictly pure, genuine article, and perfectly free from any adulteration whatever, which the Company will warrant as such to all who may purchase their Lead.

Furchasers, therefore may be well assured that every dependence may be placed in the purity of every pound of White Lead munifactured and sold by the Company, which pureass will not only tend to the greater durability of the Faint, but will be found much more economical in its use, even in the most common description of painting, owing to the body or covering quality it possesses, thereby giving a far better faint with three, of which every painter will bear witness.
